**RE: Additional Product Lengths for the CTL-12, CTL-18 and CTL-24 Cur-Tech Systems
Proprietary Leaching System**

Dear Mr. Currivan:

This office has received your letter dated November 16, 2010 regarding additional product lengths for the CTL-12, CTL-18 and CTL-24 Cur-Tech Systems proprietary leaching system. The additional product lengths of 2 feet, 4 feet and 6 feet will compliment the current standard product length of 8 feet. The additional product lengths will allow for more flexibility to accommodate various leaching row lengths that may be required for various site conditions.

Thank you for updating this office of your inclusion of additional product lengths for the Cur-Tech Systems proprietary leaching system.

Please feel free to contact me if you have any questions or comments.

Sincerely,

Matthew A. Pawlik, P.E., R.S.
Sanitary Engineer III
